

INVAP

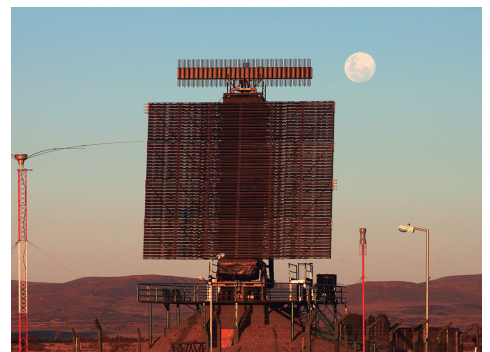

QUALITY, ENVIRONMENT AND OCCUPATIONAL SAFETY AND HEALTH POLICY

May 2024

INVAP is a company that has been developing state-of-the-art technology in different fields of the nuclear, space, defense, security, environment and nuclear medicine industries for almost 50 years.

Thanks to its experience in conceiving, implementing and managing multidisciplinary and highly complex projects, INVAP is able to provide products and services complying with its customers' requirements and to go through all the stages that a project involves, from the technical advice prior to the construction agreement to the turnkey delivery of plants. These projects have as its ultimate goal to **improve people's quality of life and contribute to the sustainable development.**

INVAP **explicitly states** in this Quality, Environment and Occupational Safety and Health policy **its commitment to:**

- **Understand and satisfy the needs and expectations** of our customers, providing safe and reliable solutions that add value.
- **Improving the environmental performance** of our processes and products:
 - Preventing, controlling and mitigating our environmental impacts.
 - Considering present and future environmental challenges.
- **Perform work in a safe and healthy manner** to prevent accidents and illnesses:
 - Starting from a preventive approach.
 - Eliminating hazards and reducing risks.
- Driving **continuous improvement and learning**.
- **Complying with legal and regulatory requirements** that apply to the products we make and our operations.
- Promote the **participation and consultation** of all the staff to address risks or improvements regarding occupational safety and health, environment or quality issues.
- Promote a **culture** of occupational safety and health, environment and quality in the company, as a fundamental aspect of the implementation of this policy.
